

SPEAKER ONE SHEET

Corey Jahnke Message & Bio:

Over the course of my highly successful healthcare career, I have gone from getting killed to killing it. If you've ever felt like you were stuck, drowning in the day-to-day and being micromanaged, I can relate to you. After 30 years in healthcare, I finally found my way out of the doldrums experienced by so many. Now, I help others get there much faster than I did.

Typically, the people I meet in the corporate environment are right where I was - lost and, to some degree, disenchanted with the industry. But in my book, *The Successful Thinker*, I teach:

- You can have peace of mind.
- You can keep your integrity
- You can spend time with your family and still be successful
- You can achieve spiritual and vocational life fulfillment
- You can make a meaningful contribution
- You can develop your creative imagination

In 2008 Corey found himself facing compassion fatigue and provider burnout at life-threatening levels. The real estate crash, combined with emotional exhaustion, created a nearly impossible relationship situation at home.

Fortunately, one amazing night EVERYTHING SHIFTED, and Corey found a way to make peace with the villains that were challenging his very survival.

His life's mission is to help you and your organization to do the same.
